CAR GARAGE

Discover the Magnolia II floor plan, a two-story haven with 5 bedrooms and 4 baths. Step through the inviting Covered Porch into elegance, where the Formal Dining and large Family Room await. Journey into the heart of the home - a Deluxe Kitchen adorned with dual-tone raised panel cabinets and Quartz countertops, complemented by a designer backsplash. Retreat to the serenity of the Primary Suite, complete with a walk-in closet, shower, and garden tub; while upstairs, the Game Room & Media offer spaces for leisure. Luxurious touches abound, from the 8' Front Door to the Cedar garage doors on the 3-car garage, and the Ledge Stone-to-Ceiling Fireplace with a Modern Box Oak Mantel. Ascend the Oak starter step, guided by the Horizontal stair railing, and bask in the charm of Laminate Wood flooring. Practical elements include gutters, a lighting system, and blinds, while the greenbelt, oversized lot, and park view offer a connection to nature. Visit our model home in Hayes Crossing today!
