This new build from Bloomfield offers a transitional layout with most bedrooms downstairs, an upstairs loft with a private bed & bath, a covered patio, and timeless designer selections. Major curb appeal across from a greenbelt! The unique, architectural stone & brick exterior is complemented by a custom 8' front door, cedar garage door, and professional landscaping. Inside you're greeted by a traditional foyer and wood floors in high-traffic areas. The Family Room has a raised ceiling and a Stone-to-Ceiling Fireplace. The Deluxe Kitchen comes with an ideal island layout, a wood hood above an electric glass range, and microwave & oven built-ins. Perfectly on-trend finishes too from Quartz Tops & White Cabinets! The huge Primary Suite downstairs has extra space at a sitting area push-out, and the bathroom was upgraded to have an enlarged shower with 2 showerheads in lieu of the tub! Lots of storage from large closets and a 2.5-car garage. Call Bloomfield at North Grove to learn more.
